M05 Programming Assignment – Testing

```
C:\Users\smith\OneDrive\SDEV 220\project>python -m unittest test
F.
=====
=====
FAIL: test_list_fraction (test.TestSum.test_list_fraction)
Test that it can sum a list of fractions
-----
-----
Traceback (most recent call last):
  File "C:\Users\smith\OneDrive\SDEV 220\project\test.py", line 22, in test_list_fraction
    self.assertEqual(result, 1)
AssertionError: Fraction(9, 10) != 1
-----
-----
Ran 2 tests in 0.001s

FAILED (failures=1)
```

The test is verifying that a result should equal 1.

The test expected the result to be 1, but it received 9/10 instead.

The test suite ran 2 tests in .001 seconds and one of them failed.
